Further Information

**KEY FEATURES OF THE SUB-FUND**

**WHAT ARE YOU INVESTING IN?**

- You are investing in an ILP Sub-Fund that feeds 100% into the Underlying Fund, an open-ended investment company established in Luxembourg, the assets of which are held in different sub-funds. Each sub-fund is a separate portfolio of securities managed in accordance with its specific investment objective.
- For Class A Shares, dividends will normally be declared on a quarterly basis on the first Business Day of February, May, August and November. They are normally paid within ten Business Days of the relevant month, or as soon as practicable thereafter. Dividends are not guaranteed and are paid at the discretion of the Directors.

Refer to “Dividends” section of the Underlying Fund’s Luxembourg Prospectus for further information on the dividend payout of the Underlying Fund.

<sup>1</sup> For ILP sub-funds that feed 100% into an underlying CIS fund, some of the information provided below could be similar to the underlying CIS fund.

<sup>2</sup> In order for units in the ILP sub-fund to be classified as Excluded Investment Products, the investment objectives and investment focus of the ILP sub-fund, and investment approach of the manager have to be stated in the product summary:

- (a) to invest only in deposits or other Excluded Investment Products; and
- (b) not to engage in securities lending or repurchase transactions for the ILP sub-fund.

The definition of “Excluded Investment Product” can be found in Annex 1 to the Notice on Recommendations on Investment Products [Notice No. FAA-N16] at <http://www.mas.gov.sg/Regulations-and-Financial-Stability/Regulations-Guidance-and-Licensing/Financial-Advisers/Notices.aspx>.

<sup>^</sup> Effective on 16 February 2016, Fidelity Funds – Sterling Bond Fund was renamed Fidelity Funds - Flexible Bond Fund.

### Investment Strategy

The Underlying Fund aims to achieve income and capital growth by primarily investing in a broad range of fixed income instruments of issuers globally either denominated in Sterling or other currencies. Exposure to non-Sterling denominated debt securities will be largely hedged back to Sterling. The Underlying Fund may also invest in UCITS and UCIs.

**Portfolio information:**

The Investment Manager is not restricted in his choice of investments either by region or country, market sector or industry, and will choose investments largely determined by the availability of attractive investment opportunities. The Underlying Fund may invest up to 50% of its assets in high-yielding, lower quality instruments which will not be required to meet minimum rating standards and may not be rated for creditworthiness by any internationally recognised rating agency.

### Parties Involved

**WHO ARE YOU INVESTING WITH?**

- The Underlying Fund is a sub-fund of Fidelity Funds.
- The Management Company of the Underlying Fund is FIL Investment Management (Luxembourg) S.A.
- The Investment Manager of the Underlying Fund is FIL Fund Management Limited.
- The Custodian of the Underlying Fund is Brown Brothers Harriman (Luxembourg) S.C.A.

Refer to “Management and Administration” and “Other Parties” sections of the Underlying Fund’s Singapore Prospectus for further information on the role and responsibilities of these entities.

### KEY RISKS

**WHAT ARE THE KEY RISKS OF THIS INVESTMENT?**

Investment involves risk. The value of the Underlying Fund and its dividends (if any) may rise or fall. These risk factors, among others, may cause you to lose some or all of your investment.

**You are exposed to Legal and Tax Risks**

In some jurisdictions the enforcement of shareholders’ rights may involve significant uncertainties. The Underlying Fund may be subject to withholding and other taxes.

Refer to “Risk Factors” section of the Underlying Fund’s Luxembourg Prospectus for further information on the risk of the Sub-Fund.

### Market and Credit Risks

**You are exposed to Fluctuations in Value Risk**

The investments of the Underlying Fund are subject to market fluctuations and other risks, and the capital value of your original investment is not guaranteed.

**You are exposed to Foreign Currency Risk**

The Underlying Fund’s total return and balance sheet can be significantly affected by foreign exchange rate movements if the Underlying Fund’s assets and income are denominated in currencies other than the base currency of the Underlying Fund and this means that currency movements may significantly affect the value of the Underlying Fund’s share price.

### Liquidity Risks

**You are exposed to Liquidity Risk**

In general, the Underlying Fund manages its investments, including cash, such that it can meet its liabilities for the redemption of any shares that investors wish to sell. Investments held may need to be sold if insufficient cash is available to finance such redemptions.

If the size of the disposals is sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the net asset value of the Underlying Fund.

### Product-Specific Risks

**You are exposed to Bonds, Debt Instruments & Fixed Income & Credit Risks**

The value of bonds and debt instruments will fluctuate depending on market interest rates, the credit quality of the issuer and liquidity considerations.

Investments may be adversely affected if any of the institutions with which money is deposited suffers insolvency or other financial difficulties (e.g. default). Credit risk arises from the uncertainty about the ultimate repayment of principal and interest of a bond or other debt instrument investments.

**You are exposed to Derivatives Risk**

The use of financial derivative instruments may give rise to leverage, liquidity, counterparty and valuations risks at times. In adverse situations, the Underlying Fund's use of derivative instruments may become ineffective and the Underlying Fund may suffer significant losses.

Applications received after 12 noon (Singapore Time) will be allocated using the next working day’s price and currency conversion. For partial/full withdrawal, exit fee may be applicable.
- The ILP Sub-Fund will have a single “dealing” price used for all switches and withdrawals/surrenders. There is no bid/offer spread, except where the fund house imposes a charge on the Underlying Fund.

- The Withdrawal Amount you will receive as part of a subsequent withdrawal is illustrated as follows:

Assuming: Policy term of 10 years and the Policyholder wishes to exit in Year 5; Initial Units withdrawn = 10,000; Unit price = S\$2; Exit Fee applicable in Year 5 is S\$6,950.

Withdrawal Amount = 10,000 X S\$2 = S\$20,000

Amount payable to You = S\$20,000 – S\$6,950 = S\$13,050
