Refer to the section “Supplement - Old Mutual Compass Portfolio 3” of the OMGIS plc Information Memorandum for Investors in Singapore for further information.

KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

- You are investing in an ILP Sub-Fund that feeds 100% of its assets into the Underlying Fund, a sub-fund of an investment company with variable capital incorporated with limited liability in Ireland with registered number 271517, established as an umbrella fund with segregated liability between funds and authorised pursuant to the European Communities UCITS Regulations 2011.

The ILP Sub-Fund aims to generate a long-term total return.

Refer to the section “Supplement - Old Mutual Compass Portfolio 3” of the OMGIS plc Information Memorandum for Investors in Singapore for further information.

¹ For ILP sub-funds that feed 100% into an underlying CIS fund, some of the information provided below could be similar to the underlying CIS fund.

² In order for units in the ILP sub-fund to be classified as Excluded Investment Products, the investment objectives and investment focus of the ILP sub-fund, and investment approach of the manager have to be stated in the product summary:

- to invest only in deposits or other Excluded Investment Products; and
- not to engage in securities lending or repurchase transactions for the ILP sub-fund.

The definition of “Excluded Investment Product” can be found in Annex 1 to the Notice on Recommendations on Investment Products [Notice No. FAA-N16] at <http://www.mas.gov.sg/Regulations-and-Financial-Stability/Regulations-Guidance-and-Licensing/Financial-Advisers/Notices.aspx>.

Investment Strategy	
<ul style="list-style-type: none"> • The ILP Sub-Fund will invest in a diversified range of asset classes. • The ILP Sub-Fund will invest up to 75% of net assets in a globally diversified portfolio of equity and equity related securities as well as seek to gain indirect exposure to equity and equity related securities through shares and units of collective investment schemes. • In addition to the ILP Sub-Fund’s proposed exposure to equities, the Investment Manager may also look to achieve its desired exposure by investing in fixed income instruments such as bonds, money market instruments, deposits, cash and near cash, as well as both commodity-related and property-related instruments though it will not invest directly in commodities or property. • Instead, exposure to commodities will be obtained either via investment in other collective investment schemes (both open and closed-ended) and/or via investment in financial derivative instruments. • Similarly, property- related exposure may be obtained via investment in REITs and/or other debt securities issued by REITs. • The ILP Sub-Fund’s use of derivatives may include using derivatives to create synthetic short positions. 	<p>Refer to the section “Supplement - Old Mutual Compass Portfolio 3” of the OMGIS plc Information Memorandum for Investors in Singapore for further information.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Promotor, Investment Manager and Distributor of the Underlying Fund is Old Mutual Global Investors (UK) Limited. • The Administrator, Registrar and Transfer Agent of the Underlying Fund is Citibank Europe plc. 	<p>Refer to the OMGIS plc Information Memorandum for Investors in Singapore for further information.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of the ILP Sub-Fund may rise or fall. The following key risk factors may cause you to lose some or all of your investment:</p>	<p>Refer to the section “Introduction - Risk Factors” of the OMGIS plc Information Memorandum for Investors in Singapore for further information.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to the market risk. <ul style="list-style-type: none"> ○ Prices of securities change daily, and can fall based on a wide variety of factors. The effects of market risk can be immediate or gradual, short-term or long-term, narrow or broad. • You are exposed to equity risk. <ul style="list-style-type: none"> ○ Equities involve higher risks than bonds or money market instruments. They can lose value rapidly and remain at low prices indefinitely. Equities of rapidly growing companies are highly sensitive to bad news as their value is based on high expectations for the future. Equities of companies that appear to be priced below true value may continue to be undervalued. Equities of a company going through bankruptcy or other financial restructuring may lose most or all of their value. ○ Small / mid-size companies are at greater risk of long-term or permanent setbacks due to fewer financial resources, shorter operating histories and less diverse business lines and their equities are more volatile than those of larger companies. ○ Where hedging is successful, it eliminates both opportunities for gain and risks of loss. • You are exposed to the counterparty risk. <ul style="list-style-type: none"> ○ The ILP Sub-Fund suffers loss if a counterparty does not meet its obligations to the ILP Sub-Fund. The ILP Sub-Fund can try to recover loss by using any collateral associated with the obligation, but the value of collateral may be worth less than the cash or securities owed to the ILP Sub-Fund. The ILP Sub-Fund’s ability to meet its own obligations to other counterparties may be affected. This could cause a delay in the processing of redemptions. 	

<ul style="list-style-type: none"> ○ Securities lending transactions can carry counterparty risk. ● You are exposed to the credit risk. <ul style="list-style-type: none"> ○ The value of a bond or money market security falls if the financial health of the issuer weakens. In extreme cases, the issuer may delay scheduled payments to investors, or may become unable to make payments, and the issuer's bonds or money market securities may become worthless. 	
--	--

Liquidity Risks	
------------------------	--

<ul style="list-style-type: none"> ● The ILP Sub-Fund is not listed on the Singapore Exchange and you can redeem only on Business Days through Aviva. In respect of Singapore investors, there is no secondary market for the ILP Sub-Fund. ● You are exposed to liquidity risk. <ul style="list-style-type: none"> ○ Securities that are not publicly traded are difficult to value and sell at a desired time and price. This also applies to publicly traded securities but represent a small issue, trade infrequently, or trade on comparatively small markets or have long settlement times. Liquidity issues can cause delays in the processing of requests to redeem shares. 	
--	--

Product-Specific Risks	
-------------------------------	--

<ul style="list-style-type: none"> ● You are exposed to leverage risk. <ul style="list-style-type: none"> ○ To the extent the ILP Sub-Fund creates leverage, its NAV is likely to be more volatile and the risk of large losses is greater. ● You are exposed to derivatives risk. <ul style="list-style-type: none"> ○ Derivatives transactions are complex and more volatile than traditional investments. They may involve losses that are significantly greater than the cost of the derivative. The pricing and volatility of some derivatives may diverge from the pricing or volatility of their underlying reference(s). ○ OTC derivatives are less highly regulated than market-traded securities, and carry greater counterparty risk and liquidity risk. ○ Exchange-traded derivatives have lower risk than OTC derivatives, but a suspension of trading in derivatives or in their underlying assets could make it impossible for a Sub-Fund to realise gains or avoid losses, which in turn causes a delay in handling redemptions of shares. ● You are exposed to interest rate risk. <ul style="list-style-type: none"> ○ When interest rates rise, bond values generally fall. The longer the maturity of bond investments, and the higher the credit quality of the bond, the greater the risk. ● You are exposed to currency risk. <ul style="list-style-type: none"> ○ Changes in currency exchange rates could reduce investment gains or increase investment losses. Exchange rates can change rapidly and unpredictably. ● You are exposed to operational risk. <ul style="list-style-type: none"> ○ The ILP Sub-Fund could suffer from losses through people, process and system failures. ● You are exposed to the risk of investment in other UCITS or UCIs. <ul style="list-style-type: none"> ○ There is the risk that investors will pay investment and/or management fees both to the ILP Sub-Fund and to the UCITS or UCI. These combined fees could be higher than the investor might pay to invest directly in a similar type of investment to the underlying UCITS or UCI.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

All ILP Sub-Funds will be priced based on the frequency of the fund manager's pricing. The fund prices are available at Aviva Ltd's website at www.aviva.com.sg.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can exit the ILP Sub-Fund by submitting a request for withdrawal or fund switching (i.e. switches) to Aviva Ltd.
- If your Policy is newly incepted, you may cancel the Policy by giving us written notice of cancellation provided that such notice of cancellation is received by Aviva Ltd at its Registered Office within the free-look period, which is fourteen (14) days from the date on which you receive the Policy.
 - Upon cancellation of the Policy, Aviva Ltd will sell all units allocated to the Policy at the next appropriate ILP Sub-Fund Valuation Date and will pay all sums received upon such sale to you on or before the settlement date. No increase in market value of the units allocated to the Policy shall be payable to you. No interest shall accrue or be payable on any sums payable to you pending payment. Any applicable Fees and Credit Card Charges deducted from the Policy will be refunded to you and the exit fee will be waived.
- For subsequent withdrawal/surrender or fund switching, Aviva Ltd must receive your applications by 12 noon (Singapore Time) for the withdrawal/surrender or switches to be based on the same working day's price and currency conversion (if required). Applications received after 12 noon (Singapore Time) will be allocated using the next working day's price and currency conversion. For partial/full withdrawal, exit fee may be applicable.
- The ILP Sub-Fund will have a single "dealing" price used for all switches and withdrawals/surrenders. There is no bid/offer spread, except where the fund house imposes a charge on the Underlying Fund.
- The ILP Sub-Fund will be priced based on the frequency of the fund manager's pricing policy. As units are cancelled using a forward price, the unit price for all switching and withdrawal of units will not be available at the time of receiving your application.

The cut-off time stated is correct as at the time of print. Aviva Ltd reserves the right to change the cut-off time by giving you thirty (30) days' prior notice or any such shorter period of notice as Aviva Ltd may agree with the relevant authorities.

- The Withdrawal Amount you will receive as part of a subsequent withdrawal is illustrated as follows:

Assuming: Policy term of 10 years and the Policyholder wishes to exit in Year 5; Initial Units withdrawn = 10,000; Unit price = S\$2; Exit Fee applicable in Year 5 is S\$6,950.

Withdrawal Amount = 10,000 X S\$2 = S\$20,000

Amount payable to You = S\$20,000 – S\$6,950= S\$13,050

Refer to the Pricing of Units & Dealing Deadline, Fund Switching, Withdrawal/Surrender and Free Look sections of the Product Summary for further information.
